LOCUST CONTROL

Tuesday, 24th August 2010

To Whom It May Concern:

Locust Control on Certified and Applicant Operations

NASAA has reviewed products for locust control for use on certified and applicant/precertification operations.

For the 2010 – 2011 season only, the following 2 biological control products are approved for use on NASAA certified and USDA NOP certified properties:

Green Guard ULV; and

Green Guard SC Premium.

Alternative insecticides must be approved prior to use.

We urge you to determine your needs and to purchase control products urgently as we understand that approved product is already in short supply.

Yours sincerely,

A handwritten signature in black ink, appearing to be "R May".

Mr Rod May
NASAA Chairman
