

Describe in detail how you manage/produce these crops/products organically: (Please include information about crop rotations, fertility, weeds and pest management).

Farm Map

If adding new crops to your certification, please forward an updated map detailing where the crop(s) will be grown. The map must be to scale. The map must clearly show the following details. Applications with inadequate maps will not be processed.

- The precise boundaries of the certified land. If natural boundaries are not obvious, the map must indicate how the boundary is marked.
- The area that will actually be in crop production. If possible, include names, codes or assign numbers to individual fields and indicate current crops. Indicate names of paddocks and the numbers of hectares per paddock.
- A description of all neighbouring land uses. Write in at each boundary the adjacent land uses.
- The directional orientation of the map. Place a “North Arrow” on the map.

OR

c) Additional Processing Activity

If adding a new processing activity to your certification, please provide a detailed description of the process flow (flow chart is acceptable) and include how the organic product will maintain its organic integrity throughout all stages of the process. Include hygiene and pest control. Use additional sheets of paper or attach additional information if necessary.

Ingredients List

If adding new products to your currently certified product list, please provide the following details (use extra sheets if required for more than one product):

Product #1

Ingredients	% Weight to weight	Certification Level	Certifier	Certificate Expires

d) Declaration

The information provided within this document is complete and accurate to the best of my knowledge. I understand that NASAA will rely upon the answers and information contained in this application in deciding whether to certify crops/products/processes in accordance with the Standards and that it is important to the integrity of the Standards and the scheme of certification operated by NASAA that the answers and information provided in this form are true and accurate.
