

Support the organisation that supports the Organic Industry become a NASAA Member

BENEFITS OF NASAA MEMBERSHIP

The National Association for Sustainable Agriculture, Australia (NASAA) was formed in 1986 and supports the education of industry and consumers on organic, biodynamic and sustainable agricultural practices. NASAA is Australia's first and oldest organic organisation.

Becoming a NASAA member enables you to support industry development, education and training. It enables us to promote the produce and services of our operators and members. You can have a greater say in the future direction of the organisation and the organic industry; keep in touch with the latest news and information relating to industry developments in Australia and internationally; and access member discount rates on advertising and related product incentives.

NASAA membership is open to anyone supporting the NASAA aims and objectives. Membership is quite separate from the certification process - it is not necessary to be a member of NASAA to be a NASAA certified operator, and vice versa. Membership enables you to connect to networks and market opportunities; vote at the Annual General meeting and receive the following:

- **NCO Technical Bulletin** as published
- **Into Organics** – the NASAA booklet outlining Organics and certification
- **Organic Insights** – NASAA quarterly industry news E-magazine
- NASAA media releases electronically as they go out – bringing you the latest news, before the “news”
- Discounted advertising rates in all NASAA publications to reach your audience
- Discounts at NASAA events
- Discounts on car hire with AVIS
- NASAA certificate of membership

We are always working on new incentives which will further add value to your membership and your support to NASAA is appreciated!

NASAA IS ALSO INVOLVED IN

- Providing information and advice on organic issues;
- Representing industry through event participation and speaker representation at international, national and regional conferences and events;
- Supporting well-needed industry research and development programs; and
- Developing and maintaining relationships with national and international organic bodies

NASAA IS NON-FOR PROFIT

As a not-for-profit member-based company, NASAA Membership fees assist the organisation to grow its capacity in representing the interests of the organic industry in general.

NASAA MEMBERSHIP RATES

- Membership for 12 months \$99.00 Inc. GST
